

## Herman

### BAND STORY

"

I used to jam heavily on resrocket and then rocket network and then moving to rocketears-online.net and jamwith.us. I play a little of everything...singing and lyric writing, guitar, mandolin, tin whistle, tenor banjo, ukulele, oud (when I can get it in tune), electric guitar, synths etc. I used to be very into creating music from scratch, now I feel like remaking music from the 1920's and 30's.

### LATEST NEWS

#### deleted

I had to delete honolulu baby due to copyrite issues.

#### bass added to honolulu baby

My first collab addition on IMW--a great bassline by Bob Ross from Eloquent Edge. I haven't jammed online for like 6 years...it is great to get back into music again. a great diversion!

I want to post this project on the forum and see if I can get other ppl to add to it--especially the end part for solos etc and then I will edit the song to put that part in the middle.
