

## Rocker

### BAND STORY

"

Let me introduce myself, I'm Gary Hart a Hard Rock guitar player born and raised in Canada's Capital...of Ottawa, Ontario. I received my first acoustic guitar at the age of 8 years old...My interests for playing guitar actually start at the age of 11 when I was inspired by a local musician John Ricci (Lead guitarist) from the Heavy Metal band Exciter. Having been amazed by Mr. Ricci I purchased an electric guitar and amplifier from his store and started on my journey learning through books, instruction video tapes and many practices I was determined to play like John. At that point my love for music began to grow.

I have met many wonderful musicians throughout the years that shared the same dreams of creating original music. I recorded my first instrumental piece in a small town called Arnprior just west of Ottawa (early 90's). Over the years I have completed many projects such as Jingles, advertisements and helping other inspiring musicians. To this day...I still play my guitar and have built a home recording studio to help reach a personal goal of mine, to record an album of original Hard Rock music. Over the years I have developed my own unique style of guitar playing and want to share with you my passion for Hard Rock music.

To further my goals...I have met up with great talented musicians helping me with my first studio album. This demo will have a special guest Pro Drummer Phil Robertson on my song (Shining Through & I Can Be Loved). Also amazing Killer good drummer Phil Elliott (Drummer from Born Destroyers) Toronto, Ontario that are making a huge impact in the Metal music scene. Phil has played some killer drum tracks on the remaining album. Also featuring is Vocalist Thomas Watson from (former Makeshift Band Renfrew, Ontario) Thomas shares his great vocal ability and has been an inspiration to this project, a great person to work with. Thomas is a huge help in reaching my goal. On Bass Guitar is Richard Kociszewski from (Ottawa, Ontario). Richard has been a pleasure in the studio...providing me with bass tracks.

To top this experience off and to make my first album dreams all possible...I would like to personally Thank (Pro Mixing Engineer) Kent Clemmons for taking on this Hard Rock project...mixing down my music to capture the best sound possible. Many Thanks Kent! You are an amazing guy!!

Thanks to all those who have support me and many thanks to those who have taken the time to stop by to have a listen! As being my first Album I must say that I'm very Proud!

“Keep Rockin”Follow Your Dreams!

Gary
